
Drawing No. JVVNL/SE(PROC)/SPO-II/TN-4338/01

NOTE 1 — All letterings should be centrally spaced.

NOTE 2 — The dimensions for the words in district language are mainly for guidance, however, care should be taken to space them centrally between the edges and the area of the skull and bones.

NOTE 3 — The location of the fixing holes shall be left to the choice of the user.

NOTE 4 — 11 000 volts is just specimen, actual voltage is to be inserted for different system voltages.

NOTE 5 — The corners of the plate should be rounded off.

All dimensions in millimetres.
