

Amendments and clarifications in the RFP Identification No: (IT)/RAPDRP/33 titled  
"REQUEST FOR PROPOSAL (RFP)

For selection of 'IT Implementation Agency' to assist the Rajasthan Discoms for  
implementation of IT infrastructure"

Amendments version 2

**Reply of General Queries asked during Pre-bid conference held on 9-07-09**

**Application Queries**

Clause no. 2:

OLD TEXT:

Elaboration of GCC clause 19- subcontracting :The core modules of the software solution such as MBC, New Connection, Dis-connection, Customer Care etc. being offered by the ITIA must have been proven and tested for robustness, scalability and functionality in large utility environment. The utility therefore envisages that these applications shall either be standard OEM products or developed / productized applications of the ITIA, with proven track record." While the ITIA is free to take application software/solution from any vendor, the ITIA must have implemented the offered solution at atleast one power utility worldwide."

**This shall be applicable to this bid**

NEW TEXT:

Elaboration of GCC clause 19- subcontracting :The core modules of the software solution such as MBC, New Connection, Dis-connection, Customer Care etc. being offered by the ITIA must have been proven and tested for robustness, scalability and functionality in large utility environment. The Rajasthan discoms therefore envisages that these applications shall either be standard OEM products or developed / productized applications of the ITIA, with proven track record.

**This shall be applicable to this bid**
