

## **ROOF TOP SOLAR POWER PLANT**

To take a step towards 'Green Energy' and to save energy, JVVNL has decided to install Solar Power Plant of at the ROOF TOP of Vidyut Bhawan for 200 KW capacity. In Vidyut Bhawan the energy to the tune of 8 lac units per year (Aug,08 to July, 09) is consumed with assessed amount of Rs 48 lacs. The area of Vidyut Bhawan Roof is approx. 2500 sq.m. with connected load 1065 KW/CD 600 KVA. The DPR for availing subsidy is sent to RREC who shall further transmit it to MNRE.

It was also decided to explore the proposals for installing SPV system at the roof top of big Govt. building such as secretariat, I-Tax Office, Housing Board Office etc. M/s Dharashaw, CDM consultant to JVVNL was advised to prepare such schemes.
